WILLEMARCK, KNUTSSON & ÖBERG "Alla drömmars sång" Song of Dreams CE25

"On this cd you hear some of the musicians I have played with most of all. Hundreds and hundreds of hours on stage and in rehearsals. Yet I hear them for the first time when I hear them here. Their intensive presence in the music.

Their power and genuine will to move us. In intimate dialogues they play one another and rediscover music for us. Then: surprise and joy at the sudden capitulation of the notes. They are good. Very good."

Ale Möller about this album.

Lena Willemark vocal, violin, viola

With her folk music walking staff, she always finds her personal expression in new musical terrains. She stands out as one of the most versatile artists in northern europe, and has become a major voice in swedish folk music, a singer breaking new grounds.
